

AROX SCHOOL ERP SYSTEM

AROX School ERP is a web based school management system that enables school to use and operate many of integrated interrelated modules and manages the administration of school efficiently. Due to its ever growing and competitive nature, the education sector has always been in need of a quality solution to manage and serve the school resources efficiently. It sector is giving number of solutions to schools like smart classroom, digital learning solutions and school management system to make learning easier and manage school administration effectively. Today educational institution is not limited to imparting education alone, but it is adapting latest trends in it for improving the quality of education and handling various activities of school including admissions, class management, library management, logistics, inventory, fee management, certificate, accounts etc. We offer AROX School ERP which simplifies and automates schools administration process. The school management system is accurate and reliable and can be conveniently accessed from school internet as well as from the public internet. It is fully browser based school management system which also includes virtual campus which can be linked with school portal and contains powerful online access to bring parents, teachers and students on a common interactive platform. Yet another advantage of the ERP system is that it runs on minimal hardware and easily fits in the budget of schools. In ERP users have role based access rights which tightly models existing schools hierarchy. AROX School ERP is totally customizable according to the needs of school.
